Governor's Message.

To the Honorable, the General Assembly of North Carolina:

GENTLEMEN:—I congratulate you on your return to the seat of government, to resume your legislative duties. There is much important business which will claim your attention. You will doubtless proceed to the consideration and dispatch of business in a calm and dispassionate spirit, and with an eye to the good of the whole people of the state. It is made my duty by the Constitution to "give the General Assembly, from time to time, information of the affairs of the State," and to recommend such measures as I shall deem expedient. I propose to perform this duty in a plain and candid manner, with the assurance in advance that I am prepared at all times zealously to co-operate with you in all measures which you may deem most advisable and most salutary for the State and for our common country.

STATE DEBT AND FINANCES.

The most important subject which can engage your attention is the state debt and finances.

The amount of the State debt on the 1st October, 1869, is as follows: Ante-war bonds, $8,378,200. Post-war bonds, not special tax, $8,836,845; making $17,215,045. The post-war bonds are such as have been issued since the rebellion under funding acts, on such as were authorized by law before the rebellion. This debt is known as the "old debt."

Bonds issued to Railroad Companies, the payment of the interest on which is provided for by special taxation, are as follow: To the Williamston and Tarborough Railroad, $300,000. To the Western North Carolina Railroad, $6,367,000. To the Eastern Division of said Road, $273,000. To the Wilmington, Charlotte and Rutherford Road, $1,500,000. To the North-Western North Carolina Road, $1,080,000. To the Western (Caldfield) Road, $1,320,000. To the Atlantic, Tennessee and Ohio Railroad, $1,760,000; making $12,600.000. Total bonded debt, $29,815,845. To this may be added of bonds not issued $4 280.000, making a total of the bonded debt and of bonds to be issued, of $34.095,045.

The interest on the special tax bonds is being paid. I regret to state that the Treasurer has been unable to meet the interest on the old bonds. It will be necessary to fund the interest due on these bonds, and it is for the General Assembly to decide for what time the interest shall be funded. The fact that the State made an effort to pay this interest and failed, certainly proves a disposition to pay; and the funding, by compounding and increasing the debt, thus adding to the burdens of the people and throwing new bonds on the market to compete with others already sold, will greatly stimulate the disposition which exists to meet this interest. We are able to pay the interest on the whole of this debt, and those who will come after us will be abundantly able to discharge the principal. The State of Pennsylvania, twenty-five years ago, was as much embarrassed with her debt as we are with ours, and her good name was in danger of being clouded by repudiation. But she met her responsibilities boldly and in good faith; her best men united to sustain her credit; her people submitted cheerfully to the taxation necessary for this purpose; and the result was her faith was maintained, her great resources were developed, her population increased, her wealth doubled and quadrupled, and now she would not be embarrassed with a debt of one hundred millions. North Carolina has as many natural resources as Pennsylvania. Our debt has been incurred to improve our condition—that, is, in the first place, to commence and continue certain lines of railway, and secondly, to finish these lines, as provided for in the Constitution. The amount [illegible] has already been of incalculable benefit to the State. What, if the Wilmington and Weldon Railway had not been constructed! What, if no Railroad had gone to the sea from Goldsborough? What, if the Raleigh and Gaston Road had not opened the rich cotton and tobacco region from Wake, Franklin and Granville to Weldon, and thence to Petersburg and Norfolk? What, if the North Carolina Railroad had not stretched itself out as a great life-supplying artery from Goldsborough to Charlotte? Must we paused in our career? Is not the enterprising city of Wilmington to be placed in connection with Asheville, and thence with the Mississippi valley? Must our great Western Railroad halt at Swananoa Gap, or at Asheville? No, gentlemen, *all* our great works must be completed. We must go on.—We cannot recede. We must pay the interest on our bonds, and thus keeping faith and at the same time putting our bonds at such a figure as they should command, the various Railroad Companies can dispose of those they have in hand, realized the money for them, and press their works to completion.

The present State [illegible] and, I believe, will not be increased. This is the dictate alike of justice and sound policy—justice to our creditor, and sound policy, because to increase the debt would be to oppress the people. But the debt has been honestly contracted; our bonds have been put on the market; they have been sold, and we have received the money for them, and we are bound in every way in which a State can be bound to *pay the debt*. The debt is obligatory under both the old and new Constitution, and it has been sanctioned, and its payment will be sustained as a sacred duty, by the Supreme Court of the State. Under the Constitution, and under the decision of the Court, which is the highest known to our Constitution and laws, the whole property of the State is held to meet this debt, both new and old. Let us, then, meet it like men and North Carolinians. Let us hear no whisper even of repudiation. Let every citizen of the State resolve that nothing shall be done and nothing omitted which will cast a doubt on our purpose to pay this debt. Compared with many other States we are poor in developed resources and poor in means; but let this comparative poverty be honorable,—let us not add to it the crime of dishonesty, and, by destroying our good name with our credit, put ourselves off from all hope of improving our condition. There is great hope for us in the future; but this hope is based on our integrity as a people, and on our purpose to meet all our obligations, no matter how heavy the burden may seem for the present. Repudiation would not stop with the State debt. It would extend itself to the national debt, to corporation debts, to individual debts and to private contracts. There would be no confidence between man and man. The credit system would be destroyed. The result of all this would be, not only a practical loss to the people of the State of more than the amount of their present debt, but a stigma of reproach and disgrace which would cling for ages to the character of the State.

I invite your special attention to the Report of the State Treasurer, herewith transmitted. I take pleasure in bearing testimony to the able and faithful manner in which this officer has discharged his duties; and I trust your honorable body will give due weight to his suggestions and recommendations.

I respectfully recommend, first, the most rigid economy in the public expenditures; secondly, that the Public Treasurer be relied upon by your honorable body to manage the financial concerns of the State in such a manner as he may deem best, under your direction.

PUBLIC INSTRUCTION.

Your attention is invited to the Report of the Superintendent of Public Instruction, with accompanying documents, herewith transmitted. That officer and his assistant, the Rev. J. W. Hood, have been active, zealous, patient and faithful in their responsible duties, and deserve therefor the thanks of the people of the State.

The system of public schools contemplated by the Constitution, and provided for by law, is nearly ready to go into operation. In most of the counties the requisite school officers have been elected and qualified.—Teachers will be engaged and schools opened whenever Township and County authorities are notified of the apportionment of the school money, which has just been made for the ensuing year by the Superintendent of Public Instruction, to the amount of $165,290.50. A few schools have already commenced. The General Assembly, at its last session, appropriated one hundred thousand dollars for school purposes, which sum is to be added to the capitation tax and apportioned among the counties of the State. The census of 1868, which was taken by the County Commissioners by direction of the Board of Education, shows that the school money must be distributed among 330,581 children. The amount of the capitation tax cannot be determined until the final returns of the Sheriffs on the 1st of next month.

I can not too earnestly urge on the General Assembly the importance of sustaining the free public schools.—Every hope for free government depends on the education of the masses. Taxes for such a purpose should be cheerfully paid. This is a subject upon which all can agree. We can all unite in earnest efforts to educate the rising generation, and thus make the State powerful and respected through the intelligence and general knowledge which will characterize its people.

The Swamp Lands vested in the Board of Education still remain unsold and unproductive. It is recommended that the board of education be authorized to dispose of these lands. If the board should be authorized to offer them for sale in parcels, or in a body, inquiry concerning them will be stimulated, and advantageous sales may be effected.

The University of the State claims the special attention, and is entitled to the fostering care of the General Assembly. There is now at Chapel Hill a Faculty consisting of a President and four professors who are able and experienced teachers. The establishment of schools or colleges, implied in the University system, will require the appointment of several additional professors. A complete University should at once be organized. The Constitution contemplates a University, which is an assemblage of Colleges, and not simply a college; and in such a University everything should be taught which will fit the students for the varied callings and employments of life.

The trustees of the University will organize the colored department as rapidly as their means will permit.—This department is not only a matter of justice, but of necessity. Our colored fellow-citizens are entitled in proportion to their number to equal consideration in this respect with the whites, and I am sure the General Assembly will make as thorough provision for the former as for the latter.

The proceeds of the land scrip donated by the general government to the State, and given by the State to the University to establish an agricultural college, have been received by the trustees and invested in State bonds. The amount invested is $454,000, which will yield annually $15,240. This income must be appropriated to a department of agriculture and the mechanic arts, and will not, therefore, afford any support to the University proper. The investment in State bonds has doubled the fund, which is so much clear gain to the State and to the cause of learning.

The board of education, by authority of law, has disposed of its stock in the Wilmington and Weldon road and the Wilmington and Manchester road. The amount received for this stock was $158,000. This amount has also been invested in State bonds, and is now $454,000 yielding an annual income of $27.240. The amount originally invested in these roads, of the deposit money from the general government in 1836, was $600,000, for and in behalf of the literary fund of the State. Under the present Constitution these stocks were vested in the board of education, and the amount thus realized for them does not fall very far short of the original investment, while the income is larger and more certain than it was at any period from the corporations referred to.

I cannot close this part of my message without earnestly appealing to the General Assembly to aid the trustees in sustaining the University.—This time honored institution should not, in any event, be neglected. Our young men should be educated at home. To provide for this in a manner every way suitable and proper should be a leading object with the General Assembly, as it is with the trustees of the institution.

INTERNAL IMPROVEMENTS.

I do not deem it necessary to repeat the views expressed in my last annual message on the subject of internal improvements. The whole people of the state are committed in principle, in interest and in feeling to the various works, whether completed or in course of construction. All the completed works are paying expenses, and one of them, at least, in which the State is largely interested, gives promise of a handsome dividend.

The North Carolina Railroad, extending from Goldsborough to Charlotte, is the most important work in the State. With the Atlantic road, from Morehead City to Goldsborough, and the Western Extension, from Salisbury to Paint Rock, it will constitute a trunk line from one of the finest harbors on our coast to lines of railway connected with the Mississippi valley and the Pacific coast. With the Raleigh and Gaston Road, from Raleigh to Weldon, it will afford the same path for travel and freight from the Pacific coast and the Mississippi valley to Norfolk, and the markets of the world. United with the Wilmington, Charlotte and Rutherford Road at Charlotte, and the latter with the Western Extension at Ashville, a channel of communication will be opened from Wilmington to Ashville and Paint Rock, and thence with the Great West and the Pacific coast, which will benefit immeasurably the region through which these lines will run, and add constantly and permanently to the prosperity and wealth of Wilmington. The Fayetteville or Coalfields Road is on the way to Greensborough, or Salisbury, or some intermediate point on the North Carolina Road; while the North-western Road, from Greensborough to Salem and Mount Airy, will in due time pour the rich products of Yadkin into the North Carolina Road. This latter road is, indeed, the "*North Carolina* Road." Its management by its President, Mr. Smith, and the Board of Directors, has been able and efficient. Its debt has been reduced, its condition in every respect has been improved, and it is believed it will be able at the next annual meeting of the stockholders to declare a handsome dividend. I doubt the policy of leasing or selling this road. At a meeting of the stockholders of this road, held in Raleigh on the 11th instant, to consider propositions to lease it for [illegible] duty to announce through the State

proxy that I was opposed to leasing it to any parties whatsoever. I pursued this course in the absence of instructions from the General Assembly. While your honorable body would have no power to direct a lease against the wish of the private stockholders, whose rights are secured by the charter, yet any opinion you might be pleased to express in the name of the people on the subject, whether for or against a lease, would have great weight with the Executive and the private stockholders.

THE MILITIA—LAW AND ORDER.

Attention is invited to the report of the Adjutant General, herewith submitted. This officer has performed his duty faithfully. I trust his suggestions will meet the approval of the General Assembly.

Under the present militia law the Executive is comparatively powerless to enforce the laws. These laws should be amended, so as to give the Executive the authority to embody promptly such a militia force as will enable him to repress violence in certain localities and maintain the peace.

Numerous complaints have been made to me of violence and mob law in certain Counties, by parties who ride at night armed and disguised, and assume the right to regulate neighborhoods by injuring, insulting, and punishing inoffensive white and colored persons. There is no safety for any citizen outside the law. The civil law must be maintained. Men who put on disguises and ride at night and break open houses, and molest, terrify or injure peaceable citizens, should be seized and punished. They are neither good citizens nor honest men. They are ready at any moment to act the part of outlaws and murderers; indeed, by thus disguising themselves and using deadly weapons to execute their purposes, or to state their feelings of resentment and revenge on any portion of the people, they proclaim themselves outlaws and enemies to society, and should be dealt with accordingly. Secret political organizations have existed and will exist always. Whatever we may think of such organizations, or however we may regret the necessity for them, it is not to be expected that we can get rid of them. They are comparatively harmless as long as they are pacific, and do not infringe the rights of others. But when they resolve themselves into military organizations, and take arms, under whatsoever pretext, to regulate neighborhoods and to dispense and execute such law as may be conceived only by themselves, they become dangerous to society, and all good citizens should put them down. In a matter so grave as this, involving as it does life and property, there should be no party feeling. I can not believe that any party in this State countenances or would uphold these midnight marauders, who go masked like cowards the better to conceal themselves in their nefarious work and to escape the detection and punishment they deserve. Least of all can I believe that any brave Confederate soldier, who retired from the army and submitted in good faith to the authority of the nation, would unite himself with such men, and thus bring disgrace on himself, his family and friends.

I trust the General Assembly will at once so amend the militia law and to authorize the Governor to call out for active service as many substantial white citizens as may be necessary in an emergency to enforce the law and to put down these midnight marauders. It would not be advisable to employ colored militia only in certain localities for this purpose. The outrages referred to are confined almost exclusively to Counties in which the white and colored populations are about equal in number, or in which the whites have a small majority.—To call out the colored militia alone in these Counties would be unjust to the colored race, and would give a pretext for increased exasperation among certain whites against the colored people; but as the law now is any one who may be ordered to perform service in the Detailed Militia may pay two dollars for exemption therefrom and evade service, thus imposing the burden on volunteers, or on such as can not pay that amount.

It is to be regretted that the army of the United States has been so reduced by the action of Congress that a larger number of Federal troops can not be spared at all times for this State. The presence of a regiment of infantry and four companies of cavalry, stationed at different points, would have a most salutary effect in repressing these outrages and maintaining the peace. It is not doubted, however, that in an emergency any number of Federal troops that might be required would be promptly furnished. No "war of races," as it is called, will be permitted in this country. No organized resistance to established authority would for a moment be tolerated. The national government, strong to protect and jealous of the rights and liberties of those who are [illegible] to it, is over all, and would not be slow in an emergency to vindicate its

power and to visit with condign punishment the insubordinate, the treacherous, and the guilty.

IMMIGRATION AND AGRICULTURE.

Attention is especially invited to that portion of the report of the Secretary of State, herewith transmitted, in relation to these subjects.

Every proper and judicious effort should be made by the State to promote immigration. No region of the earth can offer a better climate, or more varied or valuable natural resources than can be found in North Carolina.

Our agriculture, though it has improved in some respects since the close of the rebellion, is still in a languishing condition. This is a subject of primary importance. I am gratified to state that the late State Fair exhibited decided indications of improvement and advancement in agriculture and the mechanic arts. I trust the General Assembly will liberally foster the State Agricural Society, and the District and County Societies, as affording the best means to stimulate production's of all kinds. With energy, industry, and well-directed labor and economy, we have much to hope for in the future; and if we should the natural advantages which Providence has bestowed upon us, the day is not distant when the State will be richer, more prosperous, and more enlightened than any former period.

GEOLOGICAL SURVEY.

This survey, by the able State Geologist, Prof. W. C. Kerr, is still progressing in a satisfactory manner. The best interests of the State require that Prof. Kerr should be encouraged and sustained in this indispensible and valuable work.

THE PENITENTIARY.

The commissioners appointed for the purpose have chosen a site near the City of Raleigh, which is believed to be every way fit and advantageous, and they are pressing the work with commendable skill, dispatch, and economy. It is believed the stockade and the necessary buildings for the officers and convicts will be ready by the first day of January next, at which time the Counties will experience much relief in sending their State prison convicts to the penitentiary. The report of the commissioners will show in detail what they have done. and what will be required during the ensuing year to carry on the work.

THE INSANE ASYLUM.

The report of the Superintendent Dr. Eugene Grimsom, will show the condition of this institution. Many important improvements in the machinery, buildings and grounds have been made during the past year.—But the institution is crowded with the unfortunate, and there is an urgent claim on the humanity and benevolence of the State for considerable additions to the present buildings or for another Asylum, to provide for a large number of insane who are now uncared for. Some such provision should be made, but it is for the General Assembly to decide whether additions should be made to the present buildings in Raleigh, or whether another Asylum should be erected elsewhere. I recommend that a libeal appropriation be made for the support of the Asylum for the ensuing year, and also for furnishing that building in a proper manner. I connot too highly commend the Superintendent for the ability and fidelity which he has exhibited in the perfor nance of his duties.

THE DEAF AND DUMB AND BLIND.

It will be seen from the report of the Superintendent W. J. Palmer, Esq., that this institution is in a prospero is condition. For the session ending June 30, 1869, there were 154 pupils in attendance; 126 white and 28 colored, being an increase of 50 over the previous session. Attention is invited to the report of the superintendent. His suggestions as to improvements for the better accommodation of these children are entitled to consideration. He has been zealous and infatigable in the performance of his duties, and should be promptly and liberally sustained in his efforts to educate and improve the condition of those committed to his charge.

BOARD OF PUBLIC CHARITIES.

The Board of Public Charities, consisting of Drs. E. Grissom, William Barrow and G. W. Blacknall, Messrs. G. W. Welker and G. W. Graagan, has organized by the appointment of Mr. G. W. Welker, President, and W. J. Palmer Secretary. They are making diligent inquiries into the condition of the prisons and poorhouses of the State, and the number of insane, and other afflicted, and at a proper time will present a report to your honorable body.

DEPARTMENT REPORTS.

I transmit herewith the reports of the Auditor, the Supeintendent of Public Works, and the Attorney General. These documents contain valuable information and suggestions, to which I invite your attention.—These officers, with others referred to elsewhere, have been assiduous and faithful in the discharge of their respective duties.

FEDERAL RELATIONS.

The most cordial relations continue to subsist between the government of the United States and the government of North Carolina. The administration of President G[illegible] receiving [illegible] of a large majority of the American people. The honesty and economy by which it is characterized, and its success in maintaining the plighted faith of the nation on its bonds, while it is constantly reducing the national debt, entitle it to the special commendation and supbort of all good citizens.

I regret to state that the fifteenth amendment under which every man would be entitled to vote in every State, is not yet a part of the Constitution of the United States.—This measure of justice will yet prevail. The colored man in Ohio or Illinois should have the same right to vote that the colored man has in North Carolina; and justice will not be done, and the Union will not have been reconstructed on an enduring basis, until this right is secured by the Federal Constitution itself, so as to place it beyond any changes that may occur either in popular opinion or in the administration of the different State governments.

By the fourteenth amendment to the Constitution of the United States certain persons in the recently insurgent States are debarred the privilege of holding office at the hands of their fellow citizens; but the Congress may at pleasure remove such disability. There are many citizens of States which did not engage in rebellion, who are technically exempt from this disability, but who were not more loyal to the government and, are not now more loyal than many citizens of this State who are only technically excluded from holding office. I am not able to perceive that a citizen of a State that did not engage in rebellion who sympathized with the pretended Confederacy, and did all he could to discourage volunteering and to paralyze the national arms, is more loyal or more deserving of consideration than the Southern Unionists who occupied some small office, not with a view to aid the rebellion, but merely to escape conscription.—There are several thousands of persons in this State of the latter class, who were at one time supremely attached to the national government, and who endeavored in every conceivable way to avoid fighting against the government of the United States, but who are now soured and distressed, because, by the fourteenth amendment the very means they adopted to avoid doing violence to their judgments and consciences have been used to exclude them from office.—Every citizen of this class, and every loyal citizen, is entitled to be relieved by the Coagress. There are several thousands of others in the State, who are either indifferent to the government or opposed to the acts of Congress by which the State was reconstructed. These persons have been sorely punished for thier acts of rebellion. Even if disposed to thwart the action of the federal or State governments, they are powerless to do so. They are chafed by the reflection that their former slaves can hold office, while they are excluded, and this reflection is magnified in their minds into the belief that the national government is disposed to pursue and punish them simply because they had taken an oath to support the Constitution of the United States before they engaged in rebellion, while the obligation to support that instrument was equally binding upon all, & thousands upon thousands who never took that oath, but who were as deeply and bitterly immersed in the rebellion as they were, are not banned or excluded. The nation can afford to be magnanimous. After nine years of rebellion and strife, and civil discord, and social disruption and bitterness, a very large majority of the people of North Carolina long for peace, and harmony, and good will, and security for life and property.—But this matter is in the hands of Congress. The States have no control over it. Let the nation show its power everywhere to maintain the laws, to punish those who may resist its authority, and to sustain the reconstructed States in securing to the citizens as thorough freedom, and as profound peace and quiet as exist in other States; but let it at the same time exhibit that magnanimity and mercy towards all, which after nine years of conflict, and strife and ill will, would so admirably grace the freest, the proudest and the greatest people on the face of the earth.

In conclusion, gentlemen, allow me to say that I trust your deliberations will result in good to the whole people of the State. Let our trust be in God, who governs absolutely in the affairs of nations that He will overrule all our councils for good, and that He will shower his choicest blessings on our beloved State.

W. W. HOLDEN, *Governor.*

Connecticut has a first-class floral sensation. A specimen of the wonderful plant called the "Flower of the Holy Ghost" has been successfully raised at Norwich. The flower is a creamy white cup, nearly as large as half an egg, and extremely beautiful, and its wonder as a natural floral growth is the fact that in this flower is a litle pure white dove, with pink bill and eyes, and its head turned as if looking over its back. Its wings, feet, bill, &c., are as absolutely perfect as those of the living dove, whose counterpart this wonderful mimic bird is.

THE GOVERNOR'S MESSAGE.—We lay before our readers today, the message of Gov. Holden, sent in to the Legislature on Tuesday of last week. A calm and imparial reading of it, will convince all fir-minded men, that the Governr looks solely to the interests and honor of the State, and if his recommedations are carried out, much good will result to the whole people of the State. The crowded state of our columns prevent us from reviewing his excellent message, which has given almost universal satisfaction, and we must content ourselves by dvising all to read it carefully, satisfied that they will come to the same conclusion that we have, that it is high-toned, liberal, and patriotic.

MONTGOMERY, ALA., November 16.—The Alabama Legislature has ratified the fifteenth amendment to the Federal Constitution by the following vote: In the Senate—Yeas, 24; nays, 0. In the House—Yeas, 69; nays, 16.—*Washington Star.*

The Vote on the Fifteenth Amendment in Tennessee.

NASHVILLE, November 17.—The vote in the Tennessee lower House on the fifteenth amendment was 57 for and 12 against. The vote in the Senate will be about the same proportion.

How Hostetter's Bitters cure Dyspepsia

THE WHOLE STORY IN A NUTSHELL.

The office of the stomach is to convert the food into a cream like semi fluid, called CHYME. This is effected partly by the action of a solvent, called the gastric juice, which exudes from the coating of the stomach, and partly by a mechanical movement of that organ, which *churns*, as it were, the dissolving aliment. The CHYME passes from the stomach into the duodenum, or entrance to the bowels, where it is subjected to the action of the bile, and the nutritious portion of it converted into a fluid called *Chyle*, which eventually becomes blood

Now, it is evident that if the great solvent, the gastric juice, is not produced in sufficient quantity, or if the mechanical action of the stomach is not sufficiently brisk, the *first process of digestion* will be but imperfectly performed. It is also clear that if the liver, which plays such an important part in changing the nourishing portion of the chyme into the material of the blood, is congested, or in any unnatural condition, the *second process* will not be thoroughly accomplished. The result of the *two failures* is *dyspepsia*, complicated with *biliousness.*

The mode in which HOSTETTER'S BITTERS operate in such cases is this: they invigorate the cellular membrane of the stomach, which evolves the gastric juice, thereby insuring an ample sufficiency of the fluid to completely dissolve the food They also act upon the nerves of the stomach, causing an acceleration of the mechanical movement necessary to reduce the food to a homogeneous mass. They also act specifically upon the liver, strengthening it, and so enabling it to produce an ample and regular supply of bile, for the purpose of converting the nutritious particles of the *Chime* into *Chyle*, and promote the passage through the bowels of the useless debris.

In this way, HOSTETTER'S BITTERS cure dyspepsia and liver complaint. The explanation is plain simple, philosophical, and *true.*

WINNERS OF
THE PARIS EXPOSITION MEDAL
WHO HAVE UNIFORMLY BEEN
AWARDED HIGHEST HONORS.
At Industrial Exhibitions
IN THIS COUNTRY.

So that their work is the ACKNOWLEDGED STANDARD OF EXCELLENCE in its department, respectfully announce that, with extended and perfected facilities, and by the exclusive use of recent improvements, they are now producing YET MORE PERFECT ORGANS THAN EVER BEFORE, in great variety as to style and price, adapted to all public and private uses for Drawing Rooms, Libraries, Music Rooms, Concert Halls, Lodges, Churches, Schools, &c, in plain and elegant cases, all of which they are enabled by their unequaled facilities for manufacture to sell at prices of inferior work

The recent improvements in these organs have so increased their usefulness and popularity that they are unquestionably the most desirable instruments obtainable for family use, as well as Churches, Schools &c, while the prices at which they can be afforded ($ 0 to $1000 each) adapt them to the means and requirements of all classes. They are equally adapted to secular and sacred music, are elegant as urniture, occupy little space, are not liable to get out of order, (not requiring tuning once where a pianoforte is tuned twenty times), are very durable, and more easy to learn to play upon than the pianoforte.

The M. & H. Organ Co are now selling FOUR OCTAVE ORGANS for $5 each; FIVE OCTAVE ORGANS FIVE STOPS, with two sets of VIBRATORS for $125, and other styles at proportionate rates

For testimony to the superiority of their Organs, the Mason & Hamlin Organ Co respectfully refer to the musical profession generally; a majority of the most prominent musicians in the country, with many of eminence in Europe having given public testimony that the Mason & Hamlin Organs excel all others.

A circular containing this testimony in full will be sent free to any one desiring it, also descriptive circular, containing full particulars respecting these instruments, with correct drawings of the different styles and lowest prices, which are fixed and invariable Address

WE WOULD CALL THE ATTENTION of the public to an article which interests every house-keeper. The justly celebrated

LABOR-SAVING SOAP,

an article invented and patented by MRS. DR HUNTER, of Virginia, and for sale by H. S HAZELL, of Goldsboro', who is authorized to refund the money to all who are dissatisfied after testing it according to instructions. In the use of this Soap your linen clothes require no rubbing, either by hand or machine; our colored clothes, and all such as you do not boil, require a slight rubbing by hand

Directions for using it will be given to all who purchase It saves about one-half the labor in washing, a very large percentage in wear and tear of your clothing; removes almost all kinds of stains, such as ink, paint or fruit stains Warranted not to injure the finest texture, even a lace handkerchief. And last, but not least, it is more economical in expenditure. Try one bar, and if you do not like it buy no more.

Severe Storm.—About ten o'clock Friday night, our town was visited by a heavy storm of rain, accompanied by a high wind and thunder and lightning. The rain fell in torrents for several minutes, and the storm was noticed to be much more severe to the south of us, on the line of the Wilmington and Weldon Rail Road, up-rooting trees and demolishing fences generally. At Norfolk, the storm was still more severe, blowing down houses, bursting in windows, and frightening the citizens generally.

The Wilmington Fair.—The signal success which attended the first exhibition of the Cape Fear Fair, is the theme of the press and the numerous visitors—which were estimated at ten thousand. Great credit is due the committee of arrangements, who laid out the grounds in the most artistic style, which presented a most magnificent sight. The articles on exhibition were very creditable, and the speeches on the occasion were listened to with marked attention, and were replete with sound views.

We have a faint recollection, that just previous to the war, Wayne county held a fair, which was pronounced the most successful of any fair, county or State, ever held within our borders. The thing can be done again. The worthy and energetic president on that occasion, Mr. James A. Washington, still lives, and is as full of life and activity as ever. If he will put the ball in motion, and now is the time to do it, he will give an impetus and encouragement to those who till the soil, and next fall we can again take our place at the head of the list of Agricultural Fairs.

We cannot conceive of anything better calculated to excite feelings of pride to excel in all the departments of business or of art than the modern custom of holding Fairs.—At them we find collected for exhibition everything in the way of Live Stock, Agricultural Products, Manufactures, and the fine arts; here all the lovers of sight-seeing can have their tastes gratified. Every thing of this kind should be encouraged, and supported as handsomely as possible, as there must of necessity be a strong desire to exceed on the part of competitors for awards, and a stimulus given to whole communities and often to States, to excel in whatsoever they undertake.

FAIR AND FESTIVAL.—We learn that the Ladies of the Presbyterian church, will hold a Fair and Festival in the Town Hall, during Christmas week, commencing on Tuesday the 21st of December, and ending Christmas night. The Hall has already been engaged.

Fatal Accident.—Mr. Chas. Casey, a train hand on the Wilmington and Weldon Rail Road, met with a terrible death, on Thursday night last, near the depot, in our town. It seems that the engineer of the extra train from Wilmington was backing his engine, when the unfortunate man attempted to climb up on the tender, and in the rear of it, but missing his footing, fell on the track and was crushed in a most shocking manner. He died instantly, both legs being cut off, and his body torn to pieces. No blame is attached to the engineer.

"THE SHARPSHOOTER" is the title of a new paper the first number of which made its appearance Saturday morning. It is devoted to light reading, and is published at the office of the *Messenger*, by J. A Bonitz Esqr, at the low price of $1.25 a year, or 75 cents for 6 months.

DEMOREST'S YOUNG AMERICA.—This sprightly juvenile is constantly improving. A new and most interesting feature consists of a beautiful chromo series of Audubon's American birds, each separate picture of which is fit to frame, and together would form a charming set for a child's room. "Our Paris doll," accompanied by a letter to the little ones, by Mme. Demorest, is another great feature, not to speak of the special Christmas attractions and novelties, and a new story by the author of "Jack and Rosy." Altogether the December number ought to be good for ten thousand additional subscribers to YOUNG AMERICA. $1.50 with a beautiful premium. Publication office, 838 Broadway N. Y.

Elder Knapp declares the spirit manifestations to be a reality, and that they are all the work of the devil.

☞ Thanksgiving day was generally observed throughout the Union. The Churches in nearly every city and town were open, and services appropriate to the occasion held. The ministers of the several churches in Goldsboro' being absent from town, their places of worship remained closed during the day.

"*The North Carolinian.*"—We have received a copy of this paper, which has just been revived in Tarboro', by its former editor, Wm. A. Hearne, Esq. Mr. Hearne is a fluent writer, and liberal in his views on party politics. It will be remembered that while he edited the Carolinian in Raleigh, he published a libel against R. W. King, Esq., Collector of the port of Newbern. He has since discovered that the charges were untrue, and in his first number makes the following retraction, which is alike creditable to his head and heart:

"Mr. King took exception to the article, and brought suit against the editors for defamation of character, which has recently been decided by the courts, awarding him damages, and we now feel free to carry out an intention hitherto expressed to our counsel. And we therefore declare it as our opinion, uninfluenced by any motive save that of doing justice to a fellow man whom we are conscious of having wronged through indiscretion and party heat, that the charge of theft against R. W. King was a malicious one originating with such as could not witness, without envy the efforts of a poor young man to raise himself from obscurity; and while we know the party who communicated the story to us was as conscientious as we were in publishing it, the fact cannot be established for no living man can be found who has, or ever had, any knowledge of the circumstance.

We therefore conclude that the whole thing from the begining was a base fabrication, and we never penned an article with more pleasure than it affords us to make this statement through the same column in which the article assailing the character of R. W. King, originally appeared.

WM. A. HEARNE.

A short time ago a close fisted farmer on the Sandy River, in Maine, died, after devising $1 to his only son. The old gentlemen was duly buried in the venerable churchyard, which suffered a terrible washing away by the late flood, and a short time ago his body was found opposite the son's place, having been brought down the river a long distance. When the tender hearted son was informed of the fact, he made the touching remark, "Probably come back after that dollar!"

THE veteran General Wool, when first seized with his last illness, remarked that this would be his last sickness. "Oh, no, General," exclaimed one of his attendants, "you will recover, and be with us many years yet." "No," said the General, "this is the last flickering of a lamp that has long been burning."

The Grand Lodge. F. A. M., of North Carolina will hold its next Annual Communication in Raleigh, commencing Monday the 6th of December, at 7 o'clock P. M.

The usual arrangements have been made by which the Grand officers and Representatives can travel over the several Railroads in this State for one fare.

NOW HERE'S something remarkable: An old lady committed suicide by hanging in Chicago while under the influence of religious excitement. We thought there was no such feeling in that city.

The Rutherford *Vindicator* informs its readers, that editors live on the same kind of food as other people—when they can get it, and says perhaps, when the fact is known, some of their subscribers will pay their subscriptions in corn, bacon, &c.

The Catholic ladies of Charlotte will hold a fair and festival in that city, commencing on the 7th of December.

A. Bininger & Co., who failed in New York on Monday, are not A. M. Bininger, the old house on Beaver street.

Beecher wants John Chinaman to vote "pig-tail and all." The Boston *Post* thinks this is a queue-rious way of expressing it.

Premiums.—In looking over the list of premiums of the Cape Fear Agricultural Association, we find the following awards to citizens of Goldsboro',

A. Day, a diploma for the best superior staple cotton.

W. T. Dortch, a diploma, for best uplands cotton.

Baker & Jones, $5 for the best open and top buggy.

SHORT MESSAGE.—The President, in conversation, has stated that his message would not exceed probably two columns of an ordinary newspaper—twenty or thirty pages of cap paper. He will confine himself to facts and recommendations, and will not indulge in elaborate arguments upon any subject. The message will be sent to congress in manuscript, and will be kept open until the last moment, in order that any new matter arising may be incorporated if necessary.

Does Advertising Pay?—In answer to this the Pontiac *Gazette* says:

Within the last week, an instance of the value of advertising has come to our knowledge that furnishes a pretty conclusive answer to the question. By an expenditure of less than five dollars, in advertising, a leading firm in this city made in one transaction a clear profit of one hundred and fifty dollars. They stated the facts to us, themselves, and remarked that they were now more than ever convinced of the value of advertising.

AT twenty-seven cities in the Western States wheat is now quoted at fifty per centum lower than the rates obtained before the war, when gold and silver were in circulation. The price averages about sixty-two cents a bushel. No wonder that the grain speculators are suspending all over the country.

☞ They have a man in New Hampshire whom death seems to have forgotten. He is one hundred and sixty years of age. Why not make it two hundred?

☞ The deadliest compound that ever was seen—Kerosene.

A FEW days since Captain Joseph W. Coppage, while ploughing in a field near Naples, Illinois, turned up a pot of gold coin. He stopped his team, examined the glittering metal closely, counted it, and found it amounted to $4,000. However, a doubt depressed his soul. He feared the metal might possibly have been deposited there by counterfeiters, and might prove worthless. He took it to Winchester and sold it to one of the banks for $5,000 in greenbacks.

A SPLENDID PRIZE FOR THE LADIES!—The finest, most pleasing, and costly engraving ever published in America, to be presented as a premium to each subscriber to DEMOREST'S MONTHLY, a Magazine of practical utility in the household, a mirror of the fashions, and a literary conservator of surpassing interest and artistic excellence, acknowledged to be the Model Parlor Magazine of America.

The engraving, 28 by 35 inches, is from the original painting, entitled, "THE PIC NIC ON THE 4TH OF JULY."

The painting took a whole year, and is considered the finest of the entire list of numerous popular productions by Lilie M. Spencer. The engraving was the labor of four years, by three eminent artists—John Rogers, John Halpin, and Samuel Hollyer; the last named having been induced to come from Europe to America expressly to finish it. The engravers have ably seconded the successful labors of the painter.

None but artists can fully appreciate the skill and labor lavished on this engraving. The general effect is very fine and impressive, and the delicate finish to the heads will bear the most minute inspection. The union of line and stipple is executed with unusual ability, and their skilfull combination has greatly contributed to the success of the engravers in this unsurpassed proof of their artistical genius.

The work on the engraving alone cost over seven thousand dollars, besides the cost of the copywright, and is acknowledged by competent judges the most elaborately finished large work of art ever engraved in America.

Fine copies of this magnificent Picture, on heavy plate paper, worth $10 each, are to be given as a Premium to each Subscriber to DEMOREST'S MONTHLY MAGAZINE. Yearly Subscriptions only Three Dollars, and Ten Cents (which is to be sent with the subscription), for the postage on the engraving, (which will be mailed securely done up on a roller).

This is certainly the largest, most liberal and splendid premium ever offered to single subscribers by any publisher, and affords an easy and economical way for any one to secure an elegant work of art, a Parlor Picture that is only next to a piano in the way of ornamentation, and a perpetual reminder of a day which ought to be cherished and held in remembrance by every true American.

The reception of this magnificent picture will take every one by surprise, and we do not venture anything in saying that $10 will not procure another that combines so much of interest and beauty.

Specimens of the Magazine, with circulars giving full particulars, will be sent to any given address, post free, on receipt of 15 cents. Address, DEMOREST'S MONTHLY 838 Broadway, N. Y.

CONFERENCE.—The Methodist Conference of this State will convene in Newbern to-day.

For the Holidays.—A very superior assortment of pipes, at the Drug Store of J. Miles Hunter.

THE LEGISLATURE.—This body has gone to work in earnest. The following resolutions have been presented and referred to proper committees:

Mr. Burns offered the following resolution:

Whereas, it is the opinion of this Legislature that the time has come when the political disabilities which rest upon the people of this State can be safely removed, and as this is a Republican form of Government, and as such, as much political freedom as possible should be allowed; Therefore,

Be it resolved by the General Assembly of North Carolina, That the Congress of the United States is hereby respectfully and earnestly requested to remove the political disabilities from every man in North Carolina immediately after its assembling.

Be it further resolved, That it be also requested to repeal or modify the test oath in such a manner as to allow any man in our State to hold office.

Be it further resolved, That our members of Congress be requested to introduce the above resolutions and to vote for the same.

Referred to the Committee on Reconstruction.

Mr. SEYMOUR introduced the following resolutions:

Joint resolution against any further increase of the State debt.

Resolved, the Senate concurring, That the General Assembly, while recognizing the wisdom of the general policy of building up the State and developing its resources by a judicious system of internal improvements, hereby declares it to be its opinion that in view of the present depreciation of our State credit and the heavy burden of State taxation, any further increase of our public debt for purposes of internal improvement would be inexpedient and unwise.

Resolved, That not only good policy, but common honesty, demand that North Carolina should undertake no new pecuniary obligation until her ability to fully discharge those already incurred shall have been demostrated.

Joint resolution maintaining the honor and good faith of the State and the inviolability of our public debt.

Resolved, the Senate concurring, That in order to remove any and all doubts as to the disposition and purpose of North Carolina to meet and discharge all her legal and just obligations to her creditors, whether at home or abroad, it is hereby solemnly declared to be the sentiment of the General Assembly of said State, that honor and good faith, as well as sound policy, demand the payment of every dollar of the regularly contracted State debt that has recently been pronounced by our highest judicial tribunal in accordanee with the true intent and meaning of the constitution of the State.

Resolved, That the decision of said court is regarded as final and conclusive, not only as to the validity of the special tax debt, but equally conclusive on the other hand that the bonds pronounced illegal and irregular by said court have no binding force whatever.

Resolved, That North Carolina would regard the repudiation of a single dollar of her regular indebtedness as a violation of every principle of plighted faith, and as one of the greatest misfortunes that could befall her people.

MR. POU introduced the following preamble and resolution, which were ordered to lie over, viz:

Resolution concerning the removal of political disabilities from certain citizens of the State.

WHEREAS, The time has fully come when, in the opinion of this General Assembly, absolute equality before the law ought to prevail among the men of North Carolina without regard to race or to past political offences.—Therefore be it

Resolved by the Senate and House of Representatives of the State of North Carolina, That the Congress of the United States is respectfully requested to remove from all citizens of this State the political disabilities imposed by the 14th amendment to the Federal Constitution.

The Governor of this State is instructed to forward duly authenticated copies of this resolution severally to the Secretary of State of the United States, and to the presiding officer of each House of Congress.

Mr. MALONE introduced a resolution requesting the Public Treasurer to report the number of bonds issued to each railroad company pursuant to acts of the last General Assembly.

On motion of Mr. Harris of Wake, the rules were suspended and the resolution was adopted.

Mr. INGRAM introduced the following preamble and resolution, which were ordered to lie over, viz:

WHEREAS, Equal rights before the law and impartial suffrage is the very foundation on which our Republican institutions are based;

And whereas, This principle has been endorsed by the people of these United States by the election of U. S. Grant to the highest office in the gift of the people, and by the people of North Carolina in the election of W. W. Holden as Governor of the State; and whereas, all true Republicans wish to see all their fellow citizens in the enjoyment of all the rights of freedom; therefore,

Resolved, That in the estimation of this House the time has fully come when those legally authorized to do so should restore all the citizens of the United States to all the rights and and privileges of the most favored.

Resolved, 2d, That our Senators and Representatives in Congress are respectfully requested to use all proper means to have the disabilities removed from all who are deprived of the fullest rights of citizenship on account of participation in the late rebellion.

DOTY'S WASHING MACHINE,
LATELY MUCH IMPROVED—AND THE NEW

Universal Clothes Wringer

Improved with ROWELL'S PATENT DOUBLE COG WHEELS, and the PATENT STOP, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott Bishop M. E. Church.*

"It is worth one dollar a week in any family."—*N. Y. Tribune*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our Machine,' after a year's use, is thought more of to day than ever, and would not be parted with under any circumstances."—*Solon Robinson.*

"Your Washing Machine has been in daily use in our laundry, and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it, one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Infant Department of St. Catharine's Nursery, N. Y City.*

PRICES.—A Fair Offer.

Send the retail price, Washer $14, Extra Wringer $9, and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines free of freight, after a month's trial, according to directions.

No husband, father or brother should *permit* the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

Sold by dealers generally, to whom liberal discounts are made.

THE great cures that this Salve has, and is now making, particularly the astonishing cures of Piles which it has effected, places it, beyond question, as the greatest remedy for this disease that has ever been known.

Sufferers from this dreadful and troublesome complaint, and their numbers are counted by thousands, and daily increasing, can confidently rely upon this Salve as the great medicine that will certainly cure them, having never known it to fail in a single instance

Below we give for the benefit of those suffering from Piles, a few Testimonials from those who have suffered, and been completely cured by the use of Congleton's Vegetable Salve:

TESTIMONIALS;

WILLIAMSTON, MARTIN CO.,
February 22nd, 1869.

MR. JNO. R. CONGLETON, RALEIGH, N. C.

Dear Sir:—For the last eight or ten years I have been exceedingly troubled with a painful and distressing case of the Piles. Hearing "Congleton's Vegetable Salve" spoken so highly of as the great cure for Piles, I purchased in March, 1868, while in Washington, N. C, one box, and was soon relieved, and by the time I had used the contents of the box, I was perfectly well, and have never had any return since. I consider myself entirely and permanently cured. I give this for the benefit of those who may be troubled with the same disease, believing thereby that I will be benefiting them, and recommending to them a most valuable medicine and worthy of great praise

I have also used the salve for Sore Throat and find it the best medicine I ever had in my family for that complaint.

Respectfully yours,
JAS H ELLISON.

MR. CONGLETON—Dear Sir:—It is with pleasure that I heroin certify to the efficacy of your Vegetable Salve, in the cure of Piles I have been afflicted with said disease some twenty five years, more or less I have tried various remedies, but found no cure until I was advised by a friend in Raleigh to try your Salve, which I have done, and am at present perfectly well I have used only one box, which I think, it judiciously used, will cure any case like mine.

I would advise all afflicted with said disease to go and do likewise

Yours respectfully,
HENRY UTLEY.

THE AMERICAN
Rheumatic Liniment

CAUSES a thrill of joy to vibrate through the heart of all those who are suffering from RHEUMATISM, NEURALGIA, HEADACHE, PAIN IN THE SIDE, BACK AND JOINTS, &c

Those who are daily wasting away a life of painful suffering and torture will hail with delight the introduction of this great family medicine in their homes as the great harbinger of ease, and relief from their sufferings and pains, for this is the sure result when this wonderful medicine is used. Limbs and joints that have been stiffened and refused to perform their usual offices, have by the use of "The American Rheumatic Liniment" been restored to their former usefulness

Secure a bottle at once and be relieved of your pain and suffering.

TESTIMONIALS:

RALEIGH N. C, Jan 16, 1869.

MR CONGLETON:—On the 14th inst., I came to town with considerable pain and swelling in my right knee I got a bottle of the "American Rheumatic Liniment" and applied it to my knee, which was greatly relieved and assuaged in ten hours. I then applied it again and by night was so far cured as to forget to apply the remedy: this pain had resisted the application of Liquid Opodeldoc for a week with out any perceptible improvement, causing a limp in my walk at sometime and fears of inability to walk at all.

Respectfully,
THOS BAILY,

WAKE COUNTY, N. C., Feb. 24th, 1869.

MR. CONGLETON:—Dear Sir: My little son was for four months suffering with pain in his legs and weakness in his knees so he scarcely could get about and walked with great difficulty. I was fearful that he would lose the use of his legs entirely which gave me a great deal of trouble and anxiety, hearing of the American Rheumatic Liniment, I purchased one bottle and commenced using it, and by the time I had used half of the bottle, my son was greatly relieved and could walk very well, and after using the whole bottle, he is now perfectly well, with many thanks to you and praises for the "American Rheumatic Liniment" I am yours, &c.,

Ayer's Sarsaparilla

A compound remedy, designed to be the most effectual *Alterative* that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

☞ We welcome again to our streets and business circles our friend Mr. Albert Day, who has just returned from his northern home, where he has been spending a few weeks in visiting his relatives. It will be seen by refereence to his advertisement to day, that he still represents the well conducted and substantial firm of Messrs. Dibble, Worth & Co., of New York, and proposes to supply our Farmers with Bagging, Rope, Patent Ties, Pork, &c. For seven-teen years Mr. Day has been doing business in our town, remaining with us during the war, and performing every duty demanded of him. Strictly honest in his dealings, and punctual to a day in meeting all his contracts, he cannot fail to draw around him an immense amount of business.

[COMMUNICATED.]

Mr. Editor: Not many weeks ago I jumped on what is called the Amnamessie train at Wilmington, en route for Manhattan Island, and remembering what good old times I had in your little town, when Confederate money (new issue) was worth twenty-five for one, I could not refrain from stopping over to see what difference green-back times had upon the partially reconstructed.

The first familiar face I saw after leaving the train, was Col. Jeemes, of the "Bee Hive," wabbling around. I think he used to carry the mail, and deal largely in politics. Well, Jim is a great fellow; what a large moustache he sports, and looks so much like Ex-Gov. Vance. I have understood he was a near relative to the Governor. You know the menagerie man says in speaking of Daniel in the lion's den, "You can tell Daniel by his having a cotton umbrella in his hand." You can tell Jeemes from the Governor, by his having a hickory walking stick, and a clay pipe. Now if this should meet the eye of any one in search of family supplies, let me, though a stranger, advise you before purchasing elsewhere, to try the "Bee Hive." Jeemes will meet you with a smile all over his face, provided you have the stamps, and in that case you will find him profuse in his efforts to please.

I met my loyal and jolly friend, Mr. G., more commonly called "Old D." famous for keeping a good Hotel, and giving all the comforts at his command to the weary traveller. He always has a pleasant word for everybody, unless you mention the proceedings of the last legislature, then his Irish is up. It would appear that the law makers of the "Old North State" did not have the fear of offending very many of the good citizens before their eyes, in passing some of the stay laws. I found that the old gentleman waxed wroth muchly, and left him.

After tea I walked up and down the piazza, puffing my Havanna. I observed some one with his feet placed upon one of the posts of the piazza, and by the appearance of the shoes, I took it for my friend, "Old D." and addressed him in as pleasant manner as possible; when to my utter surprise and astonishment, I was informed in very harsh and ugly language that I was mistaken.—Remembering I had left my 'Colt's' at home, I concluded not to order "coffee for two," and withdrew from the contest in as quiet a manner as the occasion would permit. I learned afterwards that the gentleman was connected with a Drug Store.—He seems to have been wounded, I suppose, in the latter part of the "war," as the yankees aimed high at first. I hope he will accept my sympathies, and my friend "D." pardon the mistake. After recovering in a measure from the confusion, it occurred to me it might be best for my personal appearance hereafter, to make myself as small as possible. I went to the office and requested to be shown to bed. I was told the servants were out, but Mr. J. would attend to me. Imagine my consternation, in standing face to face, with about 450 lbs. of suffering humanity, and that to climb two flights of stairs, (thermometer 97,) to light me to bed. I felt truly sorry for him, and would for any man of like dimensions. After blowing and letting off steam a few minutes, he succeeded in reaching the top of the stairs, and mine host was nearly "gone up,"—he certainly was in a melting mood. I ventured at this time to ask his weight; he looked daggers at me: "a thousand pounds, d—n you." Thinks I to myself, it must be Friday; I am unintentionally insulting every body I come in contact with. Finally I reached my room, and a finer furnished one cannot be found in any Hotel in the State. Clean sheets, pillow cases, marble top bureau, wash stand, carpetted floor, and Isaac to wait on you. Who could ask for more? I slept soundly, had a splendid breakfast, and finally found myself ready to take the train. I must tell you that I was waited on before leaving home, by five gentlemen, two of whom were colored, (you know now a-days that it requires a mixture to make a genuine and respectable nomination,) and urged to allow my name to be used before a county convention, to become a candidate for Congress. Taking into consideration that intellect and diplomacy were at considerable discount, I reluctantly consented. And should I be honored with the nomination from that great Sanhedrim, which is to come together at some future day, I am not asking all cynics to say, of course I will be elected, (and if my friend of the "News" bet a wheelbarrow ride on me?) and my old friend "D," can feel assured that I will remember and secure for him some soft place where he can live on public pap the balance of his days. If he of the Drug Store is still in a bad humor, I would advise a bottle of Mrs. Winslow's Soothing Syrup. Jeemes of the "Bee Hive," sell out your honey, I will promote you. You shall have charge of a Bureau. Last but not *least*, J**** of the Hotel, if you continue to keep your house in the style you have commenced, you will soon merit the good name of your predecessor. I have no hesitation in pronouncing it one of the best Hotels from Mobile to Petersburg—long ways ahead of those of the city on the Cape Fear.

WEBSTER INSTITUTE.—The Fall Session of this Scientific, Mathematical and Classical Male Academy and Female Seminary, at Kenansville, N. C., will begin the 1st of September next. The corps of instructors are competent, headed by Prof. N. B. Webster, A. M., President, and Richard W. Millard, Esq., Principal of the Male Academy.

MECKLENBURG FEMALE COLLEGE.—We call attention to advertisement of this popular institution, to be found under head of New Advertisements. The following account of the late Commencement is from the Carolina Times, and will be found interesting:

COMMENCEMENT AT THE MECKLENBURG FEMALE COLLEGE.

"On Sunday, the Commencement Sermon was preached in the College Chapel by the Rev. B. Craven, D. D., President of Trinity College. We were prepared to hear a fine discourse, but we confess we were surprised and delighted at the large hearted, liberalized and statesmans like views expressed.

On Monday morning, we wended our way to the College to participate in the pleasure the Commencement exercises afforded. After a grand chorus by the class, the entertainment proceeded by solos, duetts, &c., and the reading of compositions. We are not a competent judge of the excellency of the former, but all present seemed pleased, yea astonished, at the sweetness and ease of execution.

The compositions read were of a very high order. When the first was read, it was so good, so well written and read, that we wrote opposite to it on the programme, superb; and so on, good, superb, fine, elegant, to the end. Where *all* acquitted themselves so creditably, we feel it would be invidious to discriminate.

After the young ladies, came Major C. Dowd, of this city, with his address on Mathematics, a subject dry and *literal*, enough, but under his treatment, truly *figure*-ative.—Strange to say this address, full as it was with sound, practical sense, abounded in wit, satire and happy play upon words, and sparkled with rare beauty. The theme so far from being dull and unattractive, afforded infinite pleasure to the audience, and only shows that, in the hands of a man of talent and high culture, any subject can be made attractive.

At night, the exercises were continued, and the spacious Chapel was densely crowded by an intelligent audience. A number of the young ladies read compositions—all good, several of rare beauty. The music pleased, and the address of Dr. Craven equaled any we ever heard.—The whole reflected great credit on the estimable President Rev. A. G. Stacy, A. M. and his able and zealous assistants. It being ascertained that Ex-Governor Vance was present, though he had [illegible] himself, which no one else could ever do, he was vociferously called for, and entertained the audience, *as only he could do*, for a short time. The Governor is the readiest off-hand speaker in the world, and on this occasion, if we judge from the laughter and applause which followed each sally, he fully sustained his reputation. This College is an established fact, and promises to be a powerful co-worker in the cause of education. Our people were delighted at what they saw and heard, and pronounced the whole a grand success.

Report of the examining Committee of Mecklenburg Female College, Charlotte, N. C.

The Committee appointed to be present at the Commencement exercises of "Mecklenburg Female College," and to report upon the examination of its pupils, would express the satisfaction which this examination has afforded them. We were especially pleased with the manifestly thorough acquaintance of the pupils with the studies that have engaged their attention. This thoroughness is the highest recommendation the Teachers themselves can desire of their qualification for the positions they occupy. Candor compels us to say, the President and Faculty have great reason to be encouraged for the success that has thus far crowned their efforts. The young ladies of the Institution have reached a degree of scholarship, that would reflect credit upon any [illegible] College.

In the judgment of the Committee the Primary Department could not be under the care of a more efficient Teacher. The system of instruction pursued (known as the Normal system) is peculiarly adapted to young children, inasmuch as the acquisition of knowledge is made less laborious, and consequently more agreeable to the youthful mind. We must crave pardon if any rule is violated in saying to the children of this Department, your examination was highly creditable both to your Teacher and yourselves.

The Committee are aware that in speaking of the students of the College proper, all of whom acquitted themselves with so much credit, it would be unfair to make minute discriminations, and in the main it would be difficult for us to decide who among such excellent scholars is the best. But there is one department upon which special attention seems to have been bestowed, viz., Composition. The subjects selected for this occasion were treated with peculiar care and revealed depths of thought far above the ordinary grade. The young ladies may well take to themselves great credit for their compositions, as they are entitled to it. As regards the musical department, to the unskilled ears of the Committee the music was exquisite, but we would prefer that criticism upon the performances be submitted to those who are proficient in that science.

In conclusion, the Committee would congratulate the President and Faculty in connection with the young ladies of Mecklenburg Female College, upon the successful exercises of its Commencement. They augur well for the future, and wishing the Institution a large share of the public patronage

We are respectfully,
N. ALDRICH,

Reparator Capilli.

Throw away your false frizzes, your switches, your wig—
Destructive of comfort, and not worth a fig;
Come aged, come youthful, come ugly and fair,
And rejoice in your own luxuriant hair.

REPARATOR CAPILLI.

For restoring hair upon bald heads [from whatever cause it may have fallen out] and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon bald heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses [from their own experience] can bear witness. But many will say, how are we to distinguish the genuine from the spurious? It certainly is difficult; as nine-tenths of the different Preparations advertised for the hair and beard are entirely worthless, and you may already have thrown away large amounts in their purchase. To such we would say, try the Reparator Capilli; it will cost you nothing unless it fully comes up to our representations. If your Druggist does not keep it, sends us one dollar and we will forward it, postpaid, together with a receipt for the money, which will be returned you on application, providing entire satisfaction is not given. SPECIAL NOTICES.

☞ A YOUNG LADY returning to her country home, after a sojourn of a few month in the City, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used CIRCASSIAN BALM, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, smooth and beautiful. Price $1, sent by Mail or Express, on receipt of an order by W. L. CLARK & CO., Chemists,

ASTROLOGY.

THE WORLD ASTONISHED

AT THE WONDERFUL REVELATIONS MADE BY THE GREAT ASTROLOGIST,

Madame H. A. PERRIGO.

She reveals secrets as no mortal ever knew.—She restores to happiness those who, from doleful events, catastrophes, crosses in love loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages and tells you the very day you will marry, gives you the name, likeness and characteristics of the person. She reads your very thoughts, and by her almosts supernatural powers unveils the dark and hidden mysteries of the future. From the stars we see in the firmament—the malefic stars that overcome or predominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Fail not to consult the greatest Astrologist on earth. It costs you but a trifle, and you may never again have so favorable an opportunity. Consultation fee, with likeness and all desired information, $1. Parties living at a distance can consult the Madame by mail with equal safety and satisfaction to themselves, as if in person. A full and explicit chart, written out, with all inquiries answered and likeness enclosed, sent by mail on receipt of price above mentioned. The strictest secrecy will be maintained, and all correspondence returned or destroyed.—References of the highest order furnished those desiring them. Write plainly the day of the month and year in which you were born, enclosing a small lock of hair.

To the Public.

THE GOLDSBORO' LIBRARY ASSOCIATION, is now fully organized. Its object, as indicated by its name, will be, to collect a large Library for the benefit of the community. We have secured a commodious Hall, in which our monthly meetings will be held, and in which the Library will be kept. We doubt whether any enterprise, not strictly religious, could be started, which would be more beneficial in this community. Our people feel its necessity. Its importance to the rising generation cannot be estimated too highly. If this enterprise is properly fostered, it will confer inestimable advantages upon the citizens, and especially upon the youth of our town and the surrounding country.

As this organization is in its infancy, we need your assistance. We need donations of books; we need money to purchase new books; we need furniture to fit up our hall. Any books you can spare, whether historical, scientific, religious or biographical—anything that you can spare, (provided it is suitable to be placed in the hands of the young,) will be thankfully received. We would be glad to obtain donations of chairs, tables, desks, &c., for the Reading Room. Let every gentleman in the town and surrounding country become a member of the Library Association, and thus aid us in raising funds to purchase new books. All donations of money will be handed to the Treasurer, Prof. E. W. Adams. All donations of furniture, books, &c., will be handed to the Librarian, J. C. Slocumb, Esq. These gentlemen will acknowledge the same in a proper manner.

PHILADELPHIA UNIVERSITY
OF
MEDICINE & SURGERY.

THE PHILADELPHIA UNIVERSITY of Medicine and Surgery was organized in 1848. Chartered by the Legislature, February 26, 1853. Name changed by a legislative enactment to the Eclectic Medical College of Philadelphia in 1860. In 1863 it purchased the Pennsylvania Medical College, established in 1842, and the Philadelphia Medical College, which had previously been merged into the Pennsylvania Medical College. In 1864 it purchased the Penn Medical University. The Trustees of the separate schools united, petitioned, and obtained a special act of the Legislature, consolidating these institutions and changing their names to that of the Philadelphia University of Medicine and Surgery, March 15, 1865. All these various acts are published in the statutes of Pennsylvania.—The cost of the building and museum was over one hundred thousand dollars. It will be observed that the University, as now organized, is the legal representative of the four medical colleges that it has absorbed. It is a liberal school of medicine, confined to no dogma, nor attached to any medical clique; but embraces in its teachings everything of value to the profession.

Sessions.—It has two full sessions each year, commencing on the 1st of October, and continuing until the 1st of January as its first session, and from the 1st of January to the 1st of April as its second; the two constituting one full course of lectures. It has also a summer session, commencing the 1st of April and continuing until August, for the preparatory branches, such as Latin, Greek, Mathematics, Botany, Zoology, Chemistry, Anatomy, Physiology, etc.

TICKETS.—Tickets to the full course of lectures $120, or $60 for each session. For the summer or preparatory course $25. Graduating fee $30. To aid young men of moderate means, the University has issued five hundred scholarships, which are sold to first course students, for $75, and to second course students and clergymen for $50, each constituting the holder a life member, with the perpetual privilege of the lectures, and all the teachings of the school. The only additional fees are yearly dissecting and matriculating ticket, each of which is $5.

THE ADVANTAGES OF SCHOLARSHIPS.—The student holding a scholarship can enter the College at any time during the year, attend as long as he chooses, and redesire the institution as frequently as It re[illegible]

1867. "THE WORLD" 1867.

THE ATTENTION OF THE PUBLIC IS invited to the claims of "THE WORLD" as one of the leading public journals of the country. It is the chief organ of the Democratic Party of the United States, and the foremost advocate of the immediate restoration of the Union. Its highest merits consists in its character as

An Enterprising and Trustworthy Newspaper.

The next year bids fair to be a more critical one in the history of our free institutions, than even any of the eventful ones that have preceded it. The first requisite for an intelligent judgement of public affairs is a full and authentic account of facts as they transpire.—These THE WORLD always aim to give with conscientious accuracy, and with equal fullness and fidelity, whether they make for or against its own views of public policy. Prompt activity in spreading before its readers every kind of news in which any part of the public takes an interest, is the first duty of the newspaper, and the facilities of THE WORLD for discharging this obligation are unsurpassed by those of any journal in the United States. SYPHILIS IN ALL ITS FORMS.

By using this medicine, the *Blood and all its secretions* will be purified, and *the entire system restored to a healthy condition*, and hence all diseases, such as Chills and Fever, Weakness, &c., will be *prevented.*

Prepared only by
J. J. LAWRENCE, M. D.,
Practical Chemist,
Wilson, N. C.

For Sale by Druggists Generally.

ROSADALIS,
OR
Lawrence's Blood Medicine.

This *greatest of all Blood Medicines* is a highly concentrated fluid extract of the *Rosadalis Scrofularia*, in combination with other chemical extract of *roots* and *plants.*

Stillingia is one of the ingredients in this medicine, and although used only for a few years by physicians, it has *already obtained an unrivaled reputation as a Blood Medicine or Alterative*

Read what the highest Medical Authority says about Stillingia, used as one of the Compound Parts of this Medicine, as an ALTERATIVE.

The following are the names of physicians, all of high standing and extensively known, and who laud it as an alterative of unequaled efficacy, viz: THOMAS Y. SIMONS, M. D., *American Medical Recorder*, Vol. XIII, page 312; A. LOPEZ, M.D., *New Orleans Medical and Surgical Journal*, Vol III, page 40, and H. R. FROST, M. D., *Southern Journal of Medicine and Pharmacy*, November, 1846. These gentlemen report STILLINGIA to be *undoubtedly a most valuable remedy in Scrofula, Cutaneous Diseases*, as well as in many other complaints benefitted by the use of mercury, and their statements are corroborated by *all physicians* who have tested it.

ROSADALIS,

in all *Chronic cases, has almost a specific action.* In fact, it is the only medicine that will *effect a speedy cure* when the system is in a *depraved state.*

It Acts on all the Secretions of the System

and, at the same time, *carries off the diseases not only through the Blood, but also through the secretions of the Skin and Kidneys.*

This preparation is compounded upon scientific principles, and with great care, by one thoroughly acquainted with the medical qualities and effects of each article, separately considered, as well as the whole in its combined state. I, therefore, recommend this preparation with the greatest confidence, being fully persuaded that it will give, *very general, if not universal, satisfaction.*

I do not pretend that it is a *Cure-all*, nor that, in all cases, and under all circumstances, it is absolutely infallible.—Common sense teaches us that the *day of miracles has passed*, but *science* and *facts* remains, and on the strength of these we call attention to the *Rosadalis Compound*, as a VALUABLE MEDICINE.

ONE BOTTLE
OF THE
ROSADALIS,
THE
Great Southern Blood Medicine,
CONTAINS

More real virture for Diseases of the Blood than one hundred bottles of the much lauded

SARSAPARILLA.

DR. LAWRENCE'S ROSADALIS

Has no equal as an alterative or Blood Medicine. It is no secret medicine, *as the formula has been published*; and is used extensively by physicians in their practice, as the most reliable medicine known for the cure of SCROFULA, WHITE-SWELLING, and all diseases growing out of an impure state of blood. Thousands will testify to its value.—*North-Western Medical Journal.*

THE ROSADALIS

Restores the system when it is afflicted with SCROFULA, CUTANEOUS DISEASES, or any other disease of the blood; it will add more to one's happiness than all the wealth of the world—Chris. Mon.

ROSADALIS will bring health? *What is the value of money compared with health?* Men will toil early and late, undergo many trials, deprive themselves of the comforts of life, to make money, and when they have accumulated it, what is it worth to them, without health?

MOTHERS, who wish to find a medicine peculiarly adapted to the cure of humors and eruptions in their children, will find a safe and sure one in the ROSADALIS, which is acknowledged to be the best Blood Medicine known. Physicians attest to this.

ROSADALIS

IS THE ONLY CERTAIN CURE FOR
SCROFULA, or KING'S EVIL.

At first small knots appear under the skin on the neck, or behind the ear, which gradually increase in size until they form one large tumor. This continues often for a long time without breaking, and even then only discharges a thin, watery humor. Sometimes the knots appear on the breast, eyes, feet, hands and armpits. Scrofula is becoming more general in this generation than people are aware of. The old, the young, the rich, the poor, are afflicted alike, and are the victims. The young child with its weak eyes: the glands are swollen, the sores and pimples [illegible] dormant in its system for years before it develops itself.

The Rosadalis is perfectly harmless.

Providence has provided in Nature herbs and roots that are remedies for all the diseases suffering humanity. *The Preparation contains no poisonous acids or mineral substances whatever* It has been extensively used, with universal satisfaction in all cases.

DR. LAWRENCE'S,
CELEBRATED
ROSADALIS,
IS THE
WOMAN'S FRIEND.

Cures all diseases peculiar to woman, when caused (as they most generally are) by an
